

**DC INSTALLATION PROCESS:**

Dear sir/ma'am,

Warm Greetings from iPay Reliable Remittance,

Please acknowledge the attach login detail of your new branch and the MTCN \_CHART TABLE,

Kindly follow below given steps to install new DC of IPAY RELIABLE REMIT system on your pc.

**SYSTEM REQUIREMENTS FOR IPAY REMIT**

- Intel P4 2.8 GHz
- 512 MB RAM
- 80 GB HDD
- Internet Connectivity.

**FOR REQUESTING AND INSTALLING DIGITAL CERTIFICATE OF IPAY REMIT**

1st Step Requesting a Digital Certificate,

Command:

1. Open an Internet Explorer.
2. Type <https://www.riremit.net/certsrv/>
3. Use the login details provided by IPAY REMIT

Login Name:

\*\*\*\*\*

Password:

\*\*\*\*\*

Access Code:

\*\*\*\*\*

4. Click on Request a certificate.

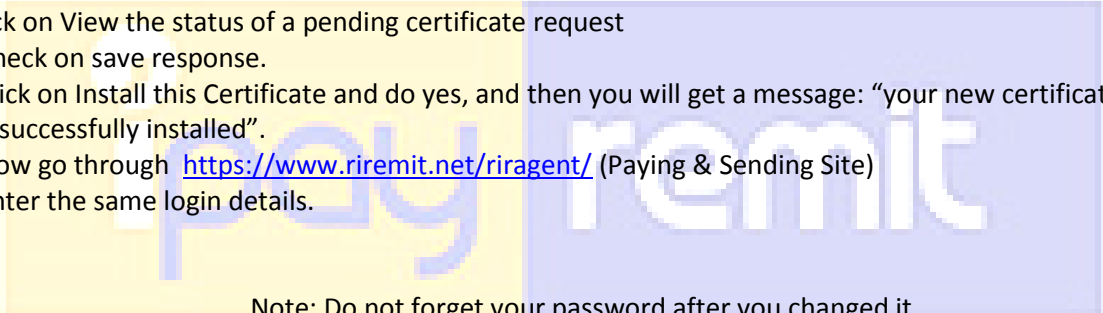

- Auto filled form will be displayed (No need to fill)
5. And click on Submit Button by doing yes. Then you will get a request id number.  
6. Then requested ID will be automatically passed to IPAY REMIT.
- 

2nd Step Installing a Digital Certificate,

7. Open Internet Explorer and open URL- <https://www.riremit.net/certsrv/>  
8. Login in with the same login details as previous.

Login Name: \*\*\*\*\*  
Password: \*\*\*\*\*  
Access Code: \*\*\*\*\*

9. Click on View the status of a pending certificate request  
10. Check on save response.  
11. Click on Install this Certificate and do yes, and then you will get a message: “your new certificate has been successfully installed”.  
12. Now go through <https://www.riremit.net/riragent/> (Paying & Sending Site)  
13. Enter the same login details.

A large, semi-transparent watermark of the 'ipay remit' logo is centered in the background of the page. It features the word 'ipay' in blue and 'remit' in white on a light blue background.

Note: Do not forget your password after you changed it.
